Tool Presentation Guidelines

1. The duration of the video should be at least 1 Hrs.
2. The video should have two components:
   - a presentation through slides (made in LaTeX as per the given template) about the tool.
   - a hands-on tutorial on how to install and use the tool for various existing features, along with simulations on a few real-world/synthetic network data sets.
3. All team members should try to participate for an equal amount of time during the whole video.
4. The presentation should include:
   - an introduction to the tool
   - its significance in network science
   - key functionalities
   - real-world applications
   - advantages
   - limitation
   - how to install and use it.
5. One member of the group will upload the video on YouTube and submit the link in the given Google Form.

The deadline for tool submission is 5 Feb 2026, 5:00 PM
